### **Article 18 - ZONE BOOTH - PANELING**

Each team leader is responsible for compliance with safety regulations.

The logistics installation of each team will be Friday, September 17th after the qualifying competitors Bol d'Or, in the pit straight, **just before the box** assigned to teams participating in the BOL D'OR.

You will be asked to respect the markings made by the organizer. The area reserved for each team will be 3x3 meters. Use arbors of this size is also strongly recommended (warning: the stowage of these gazebos can be done by adding portable weight and not by drilling bitumen).

The signaling area is in the pit area. The paneling is permitted in this area (2 signalers per team). Teams of Bol d'Argent can use only after express agreement of the teams entered for the Bol d'Or, the paneling installations for the 24 hour race. Otherwise, they will be positioned in the free spaces left along the pit wall.

It is reminded that the paneling booth must be placed as much as possible in front of the stand corresponds to the team.

**Each team manager is responsible for compliance with the safety instructions.**

**Each team must clean his pit at the end of the race. If not, a sports sanction will be applied by the jury.**

The pit exit will be opened after the passage of the last competitor.

### **Article 20 - TRAFFIC SPEED IN THE PIT LANE**

Any mechanical intervention or rider change must take place before his "stand".

Competitors who wish to stop at his stand must borrow from the outset the deceleration track.

At any stop to "stand" for some reason, the engine must be stopped.

If, during a stop, the rider exceeds the height of his "stand", and this height until the last "stand", he can come back, against the direction, **stopped motor**.

When a competitor uses the deceleration track to join or leave the stand, he will travel on it at a reduced speed, **60 km / h maximum**. Any competitor traveling at excessive speed will be penalized.

A radar will be used to check the speed in the pits.

During testing, excessive speed will be sanctioned with a fine of 75 euros.

During the race, exceeding the speed in the pit lane will be penalized with a "Stop and Go" (stop sign) 30 seconds or a time penalty.

However, the jury will have the opportunity to increase the sentence for significant overruns of limited speed.

### **Article 21 - STOP AND GO**

The Stop and Go procedure will be performed during the race as follows:

The rider will be requested to stop in the penalty area (once the team was notified of the penalty, a sign with the word "STOP" and the rider's number will be presented at the starting line. If the "STOP" sign was presented 5 times to the rider concerned and that still does not stop, the black flag will be presented, and it will not start). He must completely stop his machine and remain stopped for 30 seconds. He may then rejoin the race.

During the penalty, the team can have a mechanic present in the penalty area to attend their rider, under the direction of commissioners, to restart his machine if it stalls. The mechanic should not interfere in the procedure "stop and go", which is under the control of commissioners.

The location of the stop to take the penalty will be precise during the briefing.

During the penalty stop, the rider can not stop in its stand and will necessarily make a full turn before stopping at it, if he so wishes.

In the event that a penalized team could not perform the procedure to stop and go before the end of the race, a one-minute penalty will be added to his race time.

### **Article 22 - FUEL - SUPPLY - JUDGMENTS IN THE AREA OF THE STANDS**

#### **22.1 FUEL**

The fuel must be of type 95 or 98 unleaded sold for road pumps. No additives are permitted.

#### **22.2 PITSTOP**

During the race Bol d'Argent, each team must stop its "stand" a **minimum of three times** to refuel fuel and change riders.

Any rider change, refueling, water and oil, will have to perform in front of his "stand" in an area bounded by the organization.

**Each rider must make a minimum of two relays**, under penalty of law.

In "areas of the stands," the use of any spark-generating device (welder, sander, grinder, etc ...) is strictly forbidden. Only authorized portable electric tools free of power cables.

Each team must appoint a person to fire safety. This should be equipped with a fire extinguisher multipurpose powder or carbon foam (5 kg minimum) effective against fuel fires. This person is authorized to be present during refueling operations. **This material must be presented at scrutineering.**

No other intervention can take place on the motobike while refueling.

**Refuelling will intervene last of all**, after all the other mechanical operations.

During the refueling, the pilot can't stay on his machine.

During this operation, an attendant at the fire extinguisher must be present alongside the mothership. The "fireman" and the attendant supply should wear protective clothing (minimum cotton), a hood and an eye protection.

The storage of fuel in the space reserved for each team (3 x 3 m) may not exceed 50 liters (derrick content included).

**It is strictly forbidden to smoke in front of the pits and (immediate disqualification of the team), this ban also applies to electronic cigarettes.**

#### **22.3 DERRICKS**

To re-fueling, derricks positioned in height are prohibited. However the use of systems "flying" type "Acerbis" will be retained provided that in its mode of operation, Releasing the handle of the derrick allows him to see his fuel flow stop instantly.

The filling of the reservoir by bike can and funnel is prohibited.

The filling of the refueling system will be done in a place determined by the organization.

It can be done using a siphon or a hand pump and perform the "can-funnel" the attendant extinguisher to monitor the operation.

The valves "Zenith" are prohibited on tanks.

## **22.4 PIT STOP**

Only four persons are authorized to work directly on the machine front and stand. If the rider involved in the operations, it will be one of these 4 people.

- The following operations will be performed **IN** the "stand": wheel change, change brake pads and calipers, tension and lubricate the chain, rapid switch setting or shock or fork, etc. If at some point, it is necessary to start up the engine to carry out a test, the engine will then be stopped before being restarted before the "stand" at the time of his departure.

No other motorcycle (or motor) should be stored in the "stand".

If restart problem, two people are allowed to push the machine, the rider is on the bike. The use of an additional battery is prohibited, and any other means external to the motorcycle.

**The machine must be cranked during all these operations and the engine stopped.**

## **Article 23 - OFF RUNWAY**

**23.1)** It is recalled that a rider can move away from his machine stopped on the circuit under penalty of disqualification. In particular, it can not return to its "stand" in search of assistance, parts or tools. It is forbidden for a rider stopped for any reason to drive or push his motorcycle in the opposite direction to the race.

Any rider out on the circuit will be help with the means at hand.

Any repairs or adjustments must be made by the rider working alone with absolutely no outside assistance.

The marshals may assist the rider in order to lift the machine and to keep it as the repair or adjustment is made. The Commissioner may then help restart his machine.

If, after a crash, a rider must be evacuated to the medical center, he can after agreement of the race doctor, get his machine. It must at all times be accompanied by an official. He will return to the track where he left her. The jury remains the sole judge of the legitimacy of this action.

**23.2)** In case of failure on the circuit during the race, competitors can use to return to their stands, routes defined in Article 23.3 below, depending on the location of the machine on the circuit at the time the failure. They will however comply with the following conditions:

a) obey the instructions of the commissioners;

b) receive no outside assistance for the duration of their return.

Any rider returning to his "stand" by means other than those defined below will be immediately disqualified and his team.

The return to the pits will be carried out under the permanent control of one or more commissioners. The failed rider must push his machine to the nearest exit, in the direction of the race, in any case it can not go in the opposite direction under penalty of disqualification.

**23.3)** The routes to be followed in case of failure will be defined during the briefing.

**23.4)** If a motorbike crashes front of the pits, the rider may, under the protection of a commissioner, return by the pit exit and reassemble them by pushing his machine, engine off, against the direction to its stand.

Upon entry of the two mechanics pit area can support and push a motorcycle down, the rider must remain nearby.

The precise location where it will be possible to handle the machine down will be defined during the briefing.

## **Article 24 - TRACK INFORMATION**

The reference of the circuit of the Bol d'Argent race is the 1CV2M. It will therefore be composed of the chicane. (cf. Appendix 3)

## **Article 25 - DRIVING COURSE**

It is forbidden for a rider to leave the track outside the pit area.

If a rider uses a loophole, it must comply with the instructions of the Road Commissioners.

If the race management means that a machine must stop (round black flag orange, stop immediately or black flag) back into the pit lane, the rider will be subject to sanctions if it fails to comply immediately.

Each machine will have to be conducted, in turn, confirmed by both pilots on it. No rider is allowed to run more than two consecutive hours. After a driving time, rest period must be at least 2/3 of the driving time.

## **Article 26 - OFF OR SILENCE OF THE RACE**

**26.1)** If, during the race, an incident or weather conditions make it impossible the normal progress of the competition, the Race Director may decide to neutralize the test by entering the track two safety cars. Competitors are reminded that no overshoot (safety car, competitors) should take place during the safety-car operations.

**26.2)** If a race had to be stopped, (red flag), the Race Director, the provisions of Article 1.23 of the World Championship Endurance Regulations would apply. In any case, all the machines will be in parc ferme (this one is located in the area of technical controls).

**26.3)** If a new start of the race should be given, it will be as soon as possible, if the sailing conditions allow. As soon as the riders have returned to the pits, the Clerk of the Course will announce a new start time for the start procedure. The procedure will be identical to a normal start with a sighting lap, warm up lap, etc. However, in special circumstances, the race director may, after agreement of the Jury, decide on a starting procedure started behind the Safety Car.

The conditions for a new start of a race are :

A / In the case of the situation within three laps by the leader race:

- a) -All teams can start.
- b) -The Motorcycles may be repaired and checked by Technical control. Refuelling is permitted.
- c) -The number of turns or the distance will be defined by the race director
- d) -The grid positions will be those of the original race.

B / In the case of more than three rounds, but less than 2/3 of the time to go :

- a) -All machines having taken the initial departure and had not officially abandoned are allowed to take the restart.
- b) -The machines will be in parc ferme. All machines, whether they are running or stopped at their booth for repairs and refueling, will be directed unless the machines on which repairs are so important that their movement is not possible. Teams are allowed to make additional fuel and change tires before their stands within 5 minutes of opening the exit of the pit lane for the sighting lap.

The organization shall inform all the time new starting teams. The Race Director will inform all teams of the start procedure (one group or two groups with security vehicles).

- c) -The grid positions will be based on the intermediate classification drawn.
- d) - The number of turns or the distance will be defined by the race director
- e) -The final result of the race will be based on the addition of the results of each team ranked in each race. Riders who have completed an identical number of laps will be classified according to the combined time for each race. In case of a tie, the result of the last race will take precedence.

c / In the case of more than 2/3 of the time to go has been achieved by the leader race:

The race will be considered finished.

### **Article 27 - SURRENDER**

A competitor who does not wish to continue the race must announce and sign his surrender to the Race Direction within a short time.

During a stop on the circuit, if the rider departs voluntarily to more than 10 meters from his machine, it will be considered to have abandoned and disqualified (except see Section 23.1 above).

### **Article 28 - ARRIVAL**

At the end of the time allotted for each race, the checkered flag will be waved at the timing line "Arrival" on the lead pilot. The finish line must be crossed later than 5 minutes after the passage of the first rider.

The burns are not allowed on the track and the pit lane of the Circuit Paul Ricard.

In case of deterioration of the bitumen, the crews must pay the costs of reclamation of the coating.

### **Article 29 - CLASSIFICATION**

The ranking of each race will be based on the number of laps, then tied between the lap times on arrival.

In case of premature termination of a race, the ranking will be established as provided in the Regulations of the World Championship Endurance.

All classified machines will be in parc fermé immediately after the finish of the race.

There are no minimum number of laps to be classified, provided to cross the finish line, all teams who started will be based on the number of laps covered during each race.

To be included in the ranking, a team must have crossed the finish line on the track (and not in the pit lane) after the winner of the race in time limit of 5 minutes. The rider must be in contact with his machine.

To be ranked, a crew must have completed at least 75% of the distance traveled by the winning team.

### **Article 30 - PRIZES AND CUPS**

## **ANNEX 4 - INTELLECTUAL PROPERTY RIGHTS AND ATTRIBUTES OF PERSONALITY**

### **1- Personality attributes**

Each Participant, including each of his riders and team members, authorises the ASSOCIATION MOTO-CYCLECARISTE DE FRANCE SPORT (AMCF SPORT), to capture and fix, on any medium and by any means, his name, voice, image and more generally any performance carried out within the framework of the Bol d'Argent (hereinafter referred to as the "Attributes of the Personality").

Each Participant, including each of his drivers and team members, authorises the AMCF SPORT to use and/or have used the Attributes of the Personality, in any form and on any existing or future medium, in any format, for any communication to the public throughout the world, and for any use, including for advertising and/or commercial purposes. Each Participant, including each of his drivers and team members, agrees that this authorisation is granted without consideration of any kind, in particular financial. The Participant shall be responsible for obtaining this authorisation from its drivers and team members.

The authorisation granted by the Participant, his drivers and his team members to AMCF SPORT on the Attributes of the Personality is for a minimum period of ten years, tacitly and indefinitely renewable by periods of one year, each contractual period beginning on the anniversary date of the first day of the Bol d'Argent in which the Participant participated. The Participant may terminate this authorisation by registered letter with acknowledgement of receipt sent to AMCF SPORT, giving two months' notice prior to the end of each contractual period. The withdrawal of authorisation to use the Personality Attributes shall not have retroactive effect and shall take effect from the end of the current contractual period.

This authorisation to use the Attributes of the Personality, granted by the Participant, his drivers and members of his team, is independent of the right to use the sporting events and competitions organised by AMCF SPORT in accordance with the provisions of Article L.331-1 of the French Sports Code.

### **2- Intellectual property rights**

The Participant grants a licence to the benefit of AMCF SPORT, on a non-exclusive basis and free of charge, covering all of the following elements that may be covered by intellectual property rights all copyrights, designs, trademarks, patents, and any other intellectual property rights (whether registered or not), and in particular the team name, the names and slogans associated with the team, the trademarks, designs, models and logos associated with the team and the team's motorbike used by the Participant within the framework of the Bol d'Argent (hereinafter the "Intellectual Property Rights" or "IPR"). This license on the IPR is granted for the whole world (for the brands, for the territories of protection), and for the whole legal duration of protection of the IPR.

The IPR licence covers in particular

- The right to reproduce, permanently or temporarily, the right to adapt, the right to translate, the right to market, on all existing or future media (in particular books, booklets, posters, postcards, miniature cars, DVDs, video games, NFT, tokenisations and use in virtual universes of the metaverse type, clothing or home products and other derived products, etc. ), in all commercial networks and under all brands, with a view in particular to the exploitation and sale, whether online or offline, of elements containing IPR as well as their use for commercial, information, demonstration, promotion or advertising purposes, and this in particular in the context of promotional, cultural, press and/or public relations operations;
- The right of communication to the public, in all places accessible to the public, in particular by television broadcasting, cable distribution, satellite broadcasting, online broadcasting, including in web 3.0, and in general, by all vectors or networks (in particular analogue or digital, telecommunication and computer networks, including the Internet), in particular with a view to the commercial exploitation of elements containing IPR and/or their use for the purposes of information, demonstration, promotion or advertising, and this in particular within the framework of promotional, cultural, press and/or public relations operations;
- The right to sub-license elements containing IPR to any third party, with a view to their commercial or non-commercial exploitation in the context of the organisation, promotion and marketing of the Bol d'Or;

The Participant guarantees that he/she is the owner of all intellectual property rights attached to the IPR. Where applicable, the Participant undertakes to obtain from its sponsors, equipment suppliers, manufacturers and other rights holders all the authorisations necessary for the exploitation of the IPR under the conditions defined in this article.

This authorisation to use the IPR granted by the Participant is independent of the right to use the sports events and competitions organised by AMCF SPORT in accordance with the provisions of Article L.331-1 of the Sports Code.

## **ANNEX 5 - Penalties and sanctions**

Any attempt to defraud or to violate the rules will be sanctioned. ALL participants must respect the rules and comply with the technical regulations in force. Any team that does not meet the requirements of the technical checks and the technical inspection will be sanctioned.

In the event of a breach of the regulations, the team will be penalised with a Stop&Go and will have to bring the bike back into compliance. In the event of a second infringement, the team manager will be summoned to the jury who will decide on the penalty, which may go as far as disqualification without refund.
